SABIHA QAZI, PH.D
PRIMARY EXAMINER

Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner spoke to Mr. Grandinetti about the amendments necessary for claim 1. Examiner also discussed about why 312 amendments. Examiner notes, that these amendments were filed after receiving the notice of allowability by Applicants. Mr. Lewis told the Examiner that it was a mistake from their part. He apologized for that. Claims as amended by Applicants contain various substitutents which belong to groups which were canceled by Applicants. Examiner inadvertantly missed to cancel and apologize for any inconveniece caused by this. Furthermore, amendment in the definition of A2 was considered necessary in order to avoid any possible overlap over the prior art of record, EPA 0469711, especially compounds 90 and 92, in order to avoid any confusing language Examiner has decided to bring back original definition of A2 and newly amneded definition would be deleted. Examiner was authorized to amend the claims as discussed. Mr. Grandinetti on 8/11/05 told the Examiner that Mr. Lewis will call to discuss the issues in detail. All the amendemnts were discussed in detial on 8/12/05..
